

It all starts with Action.

With over +70 years of experience, Action Equipment & Scaffold Company provides industry-leading access and scaffolding solutions. Founded in 1953, we are proud to be a legacy member of the Scaffold & Access Industry Association (SAIA), upholding the highest standards of safety, quality, and reliability.

ACTION™

INDUSTRIAL

Built for Complex, High-Demand Heavy Duty Industrial Projects

Experience Raises the Bar

Comprehensive Access & Scaffolding Systems

We provide a full spectrum of industrial scaffold equipment — including system scaffolding, shoring, various enclosures, barriers, and more.

Custom Design, & Installation

Our in-house team of competent designers, estimators collaborate with clients to develop efficient, cost-effective, and safe scaffold plans tailored to specific project requirements.

Job site Logistic Planning & Management

We support large-scale industrial & infrastructure projects with a *Take Action* attitude, ensuring access strategies align with project milestones, safety protocols, value, and regulatory compliance.

Rental & Sales

Whether you need temporary access or long-term installations, we offer industry leading rental and purchase options to match your project schedule and budget.

Where Safe Access meets Serious Expertise

Action Industrial and our suite of companies offer a comprehensive range of industry leading industrial scaffolding solutions. We exceed the needs of industrial projects for our clients in safety, production, and value.

Action Industrial is engineered for safety, efficiency and productivity, delivering time tested services across refineries, power generation, manufacturing, data centers, and other heavy industrial facilities.

Services & Support

• Installation & Dismantling

Our experienced team delivers safe, efficient, and precision-focused support for refineries, power plants, manufacturing facilities, and other demanding industrial environments.

• Safety Training & Certification

We offer certified safety training, including competent person scaffold courses, fall protection, confined space, and more, in compliance with MSHA and other industrial standards.

• Industrial Maintenance

We also provide experienced maintenance teams, highly skilled turnaround personnel, and capital project veterans to support the high-demand of the industrial market across all sectors and industries.

• Logistics & Project Support

With decades of trusted maintenance and turnaround experience, we ensure a timely delivery, efficient setup, and dependable availability, backed by more than +70 years of experience.
